

## TRENDWAY AERAMAX PRO AIR PURIFIERS

Improve your air with this line of professional grade air purifiers that are a proven leader to effectively eliminate up to 99.9% of contaminants. Surface cleaning only goes so far. This sophisticated technology tackles the toughest germs for a healthier environment.

AeraMax™ Pro AM II

AeraMax™ Pro AM III

AeraMax™ Pro AM IV

### Carbon Filter

Reduces odors, chemical vapors (VOCs), and captures large airborne particles.

### True HEPA Filter

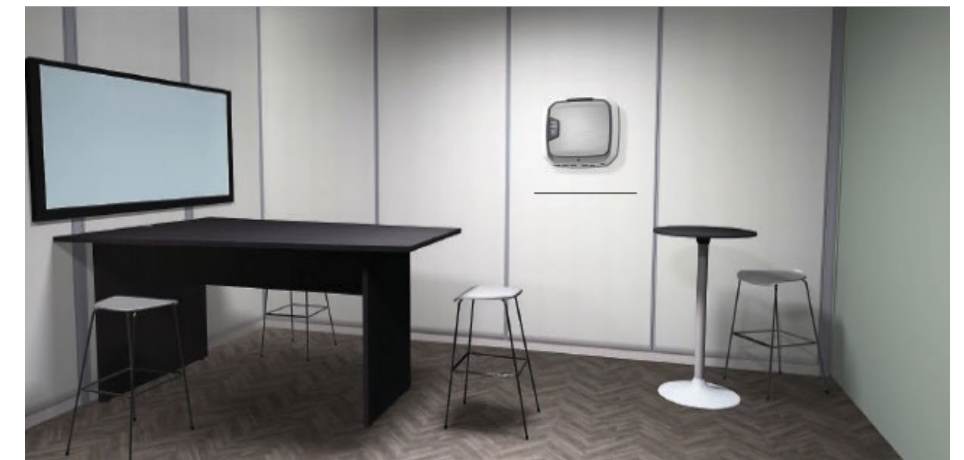

Captures 99.97% of airborne particles and impurities as small as 0.3 microns, including mold spores, germs, viruses, pollen, dust, mites, most airborne particles and allergies.

### AeraSafe™ Antimicrobial Treatment

Built-in protection from the growth of odor causing bacteria, mildew and fungi due to the True HEPA Filter.

### PlasmaTRUE™ Technology

Safely reduces airborne particles at the molecular level, instantly neutralizing germs and viruses in the air.

- Pick the model you need based on room size
- choose from wall mount or freestanding
- Can be integrated with movable walls for a seamless solution
- Can be mounted on dry wall, on movable walls, or placed in Trendway's Capture and Choices systems to further improve the surrounding air quality
